Retirement/Assisted Living Communities in Snohomish County

Retirement and Assisted Living Communities provide independent living situations with varying levels of assistance. Some facilities offer special dementia units for memory-impaired residents. Services typically included in the rent are meals, weekly housekeeping and linen services, utilities, and scheduled transportation.

Assisted living services generally offer assistance with personal care; supervision with medications, additional housekeeping and laundry services, and require an **additional fee**. Safety features may include 24-hour security, secured buildings, and pull cords in the unit.

The following list can be used as a tool to compare retirement and assisted living options. Rent in retirement and assisted living facilities will vary from \$600.00 to \$6,000.00 plus per month, depending upon type and size of the unit and level of care provided. A small number of retirement communities accept a specific number of residents with Medicaid assistance.
